

# Stakeholder & Public Comment Form for CCPG

The Colorado Coordinated Planning Group (CCPG) is a joint, high voltage transmission system planning forum. Their purpose is to assure a high degree of reliability in the planning, development and operation of the high voltage transmission system in the Rocky Mountain Region. CCPG is asking for your input for their 10-year transmission plans. Please take a few moments to provide your comments regarding planned transmission projects and return your completed comment form by August 15, 2011.
