

# Voltage Coordination Work Group

CCPG Meeting

August 18, 2011

# Voltage Coordination Guidelines

## (Rocky Mountain Area)

### ACTION ITEMS:

- Annual review and update
- Operators will take fresh look at purpose and applications of Ideal Voltages ranges
- Operators will inform Planners what, if any, additional considerations should be given at to Ideal Voltage ranges at Key Locations when planning the system
- Reactive Reserves
  - Share methodologies to determine “sufficient reactive reserves” per NERC Stds.
  - TOPs to tell WECC RC which multiple contingencies to simulate in real-time studies

### TO BE DISCUSSED:

- Interconnection testing requirements
- VC Guidelines consideration in WECC base case preparation

# Voltage Coordination Guidelines

## (Rocky Mountain Area)

### Next Meeting:

September 20, 2011

0900 – 1200

Tri-State Offices
