

Action items from SWAT TCWG Jan 5 2012 call

Hello Everyone,

HAPPY NEW YEAR AGAIN!!!

On the call today, I asked for any updates and or edits from the group to the presentation. When you open the link below you will want to view the second link with 9-11. Please send your comments to Leann and me and we will update and present at the next SWAT meeting.

Also, here is an action item list from our call. Please contact me if you have any questions.

- LeeAnn will work with AZ resource advisory council (BLM entity) on giving an overall presentation of SWAT/transmission 101 and TWCG for February 16, 2012 at NV energy from 1-3 p.m.
- Julia and LeeAnn will send out invitations when calls are organized with tribal and agency officials.
- Debbie Lucero from the NM BLM office will inquire about advisory council meetings in her state and see if SWAT/TCWG can present
 - We hope to do the same with NV and CA
- Work with the group on developing a 'top three list' for consistent messages across the southwest (our goal is to have staff everywhere repeat and understand these concepts).
- Reach out to USFS in NM- Bob Courts and set up an intro mtg and with the new BLM AZ director.
- Reach out to the SPSG tribal representatives and inquire about more outreach efforts and conferences.
- A meeting has been set up at NV Energy from 1-3 p.m. on February 16, 2012 with Tracey LeBeau in DC on tribal matters

Finally, here is a draft agenda for the February 16 meeting at NV Energy:

1. Introductions
2. Overview of SWAT transmission corridor working group
3. Review of past year work (slide deck for outreach)
4. Discussion of 'three topics' (consistent message points)
5. Project updates
6. FERC 1000 overview and update
7. Q&A
8. Next Steps & action items

Please let me know if I missed anyone or any item from today.

I appreciate all of your time and commitment!!!

Thank you,
Julia
