

Update on Transmission Expansion Planning Policy Committee

Joint CCPG/SWAT Meeting

August 17, 2006

Sandra Johnson

TEPPC Charter Establishes Three Primary Functions

1. Oversee transmission database management
2. Provide policy and management of planning process
3. Guide the analysis and modeling for western interconnection economic transmission expansion planning

Organization

- The TEPPC will interface with the WECC membership, state and regional agencies, sub-regional planning groups, consumer groups, and other stakeholders to define and maintain the data and tools to support the charter activities.
- The TEPPC will establish an organizational structure to support the responsibilities associated with its main functions.
